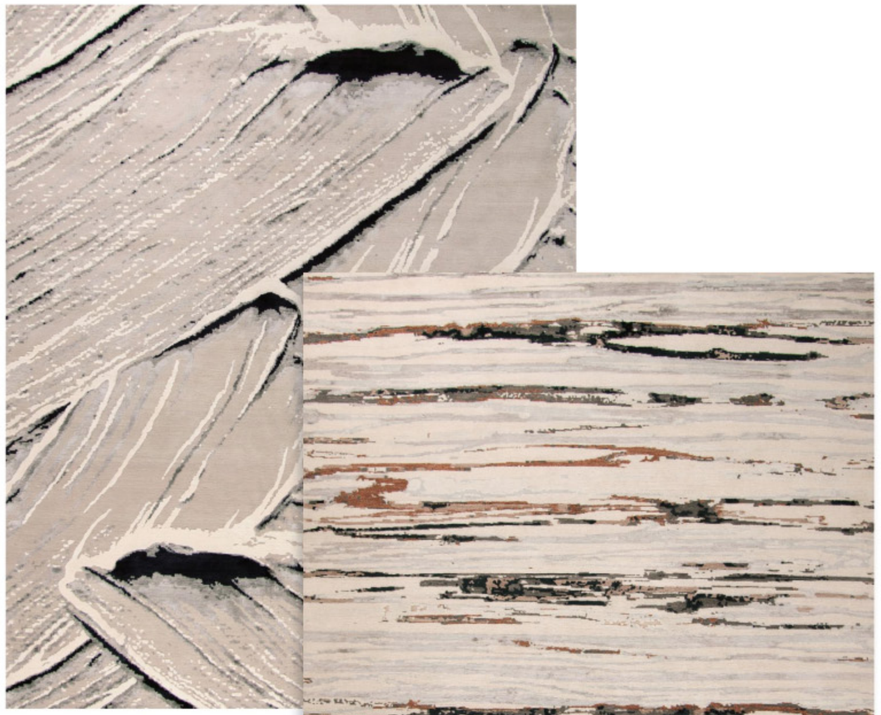
A MODERN MARVEL IN MARKHAM

An architecturally magnificent abode north of Toronto

Design Issue — Contemporary Homes — Hot Events — Health & Beauty — Giving Back

"A beautiful space starts from the ground up with a weavers art…"
– Michael Pourvakil



Splash – Sand, black in silk & wool

Nevis – Sand, black in silk & wool

Nevis: Inspired by small islands in the Caribbean Sea "Nevis" embodies the idea of sandy shores and the ocean tide washing up against it. The asymmetrical linear pattern imitates the ocean current. Warm sand tones highlight the soft sediment ripples revealed by the water as it ebbs.

Splash: A stunning abstract design based on the ocean waves hitting the rocks and ebbing back to the sea. It's serene presence comes from the ability to be seen in many forms. Colours of sand are woven into the highlights of ivory, mid-tones of grey and shadows of black silk creating depth and movement.

Vapour – Sand, black in silk & wool

Vapour: A beautiful flowing design! It is the modern personification of vapour smoke as a work of art, that dances through the air. The rhythmic movement of the design combines with warm tones capturing your imagination floating through the breeze while displaying tranquil balance and harmony.
